

Munich Network for Health Care Research – Mobile-Net

The Network currently includes a multitude of partners, among these universities, research institutions, care providers, health policy representatives, and insurances.

The structural aim of the Network is to sustainably support the local network of actors working in health care.

By conducting a number of research projects, the Network has the objective to investigate and ultimately to improve mobility and social participation of persons with chronic health conditions.

The Network is establishing a curriculum of courses to strengthen health care research both in academic teaching and continuous professional education.

The Munich Network for Health Care Research is sponsored by the Federal Ministry of Education and Research.

Sign up!

To sign up for the Spring School, please contact the person noted below **with your CV and a short letter of motivation**. The number of places is limited.

For students of the **TUAS Rosenheim** please contact Prof. Dr. Martin Müller at: Martin.Mueller@fh-rosenheim.de

For students of the **UAS KSH** please contact Prof. Dr. Bernd Reuschenbach at: Bernd.Reuschenbach@ksh-m.de or Prof. Dr. Anita Hausen at: Anita.Hausen@ksh-m.de

For students at the **LMU Munich** and **all other** please contact Dr. Daniela Koller at Daniela.Koller@med.uni-muenchen.de

Requirements & Fees

You can sign up for the Spring School if you are a health professional with at least Bachelor degree or enrolled in a Master or PhD program with a clear health focus (public health, epidemiology, etc.). Additionally, we are happy to include students of Bachelor programs of allied health professions (e.g. nursing, physiotherapy, occupational therapy), if you already finished a health-related job training. Students of the LMU Munich, Technical University of Applied Sciences (Rosenheim) or the University of Applied Sciences (KSH) may have the option to join for free.

Enrolment fee:

Academic: 150 Euro

Other professional: 300 Euro

Lecturers

The Spring School classes are given by a series of experts in the field of health care research:

Prof. Dr. Eva Grill

Institute for Medical Information Processing, Biometry and Epidemiology (IBE)
